SCF (Super Clean Foam)

**SCF100/SCF101/SCF102/SCF103/SCF104/SCF106/SCF120/SCF150**

**Outline**

SCF100 series are polypropylene foam materials with or without adhesive, which can be used as dust-proof, buffer, shock absorber, and light shield materials. Their application is mainly for display gasket of electric appliances, communication equipments and other electronic equipments.

**Construction**

- **SCF100**
  - Polypropylene foam

- **SCF101**
  - Liner
  - Acrylic adhesive (Backing: PET #50)
  - Polypropylene foam

- **SCF102**
  - Liner
  - Acrylic adhesive (Backing: PET #25)
  - Polypropylene foam

- **SCF103**
  - Liner
  - Acrylic adhesive (Backing: PET #100)
  - Polypropylene foam

- **SCF104**
  - Liner
  - Acrylic adhesive (Backing: Nonwoven cloth)
  - Polypropylene foam

- **SCF106**
  - Liner
  - Acrylic adhesive (Backing: PET #4)
  - Polypropylene foam
Features

- The environment impact material is not used.
- Easy to compress.
- Thanks to their low compression stress, they will not deform the structures after application.
- They show excellent conformability to gaps with bumps or curved surfaces.
- They have almost no impurities, which might contaminate the equipments.
- Due to the stiffness secured by their unique micro-cell structure, they show excellent process ability and workability.

Application

- Electric appliances, electronic equipments: Dust-proof display gasket and lens buffer for digital camera and digital video recorder.
- Communication equipment: Dust-proof display gasket and camera lens buffer for mobile phone.

Standard Size

<table>
<thead>
<tr>
<th>Thickness (mm)</th>
<th>Width (mm)</th>
<th>Length (M)</th>
</tr>
</thead>
<tbody>
<tr>
<td>0.5~1.0</td>
<td>500</td>
<td>100</td>
</tr>
</tbody>
</table>

Received in unit of 0.1mm

*The thickness is only foam’s thickness; the combined should add the thickness of each adhesive tape.
*For other sizes, please contact us.
Properties

- Properties of Foam

(1) General Properties

<table>

**Precautions**

● Place the products longitudinally to avoid deformation.
● Keep the products away from high temperatures and humidity, and store them in a dark cool place avoiding direct sunlight.
● As the adhesive is pressure-sensitive, attention should be paid to the lamination pressure.
● You should perform the test yourself to make sure the product is capable of the application.
