Corporate Philosophy

The Nitto Group’s Corporate Philosophy is comprised of three elements: our corporate Mission, the Vision which aligns our way of thinking in attaining our Mission, and the Nitto Way, which includes our Values, Attitudes and Mindset, and Code of Conduct.

Mission

Contribute to customers’ value creation with innovative ideas

We at Nitto Group hope to retain an attitude of relentlessly pursuing products, systems, and ideas that customers will find valuable. Our Mission is to deliver safety, prosperity, comfort, and affluence not only to customers whom we come in contact with directly but also to everyone.

The Nitto Way

Philosophical Ideas

In order to achieve our Mission to “Contribute to customers’ value creation with innovative ideas,” and our Vision, “Creating Wonders,” “The Nitto Way” indicates the Values, Attitudes and Mindset, and Code of Conduct that every Nitto employee should follow. The passion, wisdom, and values of the various senior employees who have shaped the Nitto Group for a long time since its foundation have now taken the form of “DNA” that can be found in each and every member of the Group. These principles and ideologies are stipulated as “The Nitto Way,” which serves as our standard for judgment and is something that we all turn to in situations of uncertainty.

We place safety before everything else
- Achieve zero accidents and injuries.
- All employees must work together to establish a safe and secure workplace.

Amaze and inspire our customers
- Exceed customers’ expectations to have them say, “This is exactly what I wanted!”
- Work with customers and create new societal values.
- Customer satisfaction brings value to our stakeholders.

Anticipate and leverage change
- Go to the field to sense changes in society and the market.
- Rapidly link sensed changes to actions.

Take on challenges for new value creation
- Continue to take on challenges, even if we fail in the short term, rather than do nothing for fear of failure.
- Embrace change, exercise curiosity, and take the first step forward.

Act promptly and follow through on your decisions with determination
- Take the first step forward and think while advancing.
- Share information openly, have equal and fair discussions, and if a decision is made, work together as a team to bring out the best possible result.
- Always make efforts to ensure frank and open communication beyond organizational boundaries and roles.

Transform ourselves constantly
- Anticipate challenges, implement reforms, and bring about growth in the spirit of Mu-Gen-Dai.
- Keep changing. Change leads to opportunity and growth.
- Challenge ourselves to improve our future. Changes in each of us lead to growth of the entire organization.

Have an attitude of integrity, and understand and respect diversity
- Take actions based on integrity and modesty to build relationships of respect and trust with stakeholders.
- Appreciate the diversity of our global team. Accept and respect others.

Vision

Creating Wonders

In order to achieve our Mission to “Contribute to customers’ value creation with innovative ideas,” as one team, all Nitto employees around the world must share the same vision, or outlook. This shared vision has been dubbed “Creating Wonders.” Each and every employee will challenge themselves to cause feelings of wonder and inspiration around the world; in other words, we will endeavor to create wonders in our everyday work. In doing so, power will be generated that can change the world in many different domains.

Customer satisfaction brings value to our stakeholders.

Work with customers and create new societal values.

Amaze and inspire our customers

It is with great pleasure that we publish this Integrated Report of the Nitto Group to inform our stakeholders of what we are doing to “simultaneously solve social issues and enhance corporate value.”

Described in this report are the past, present, and future of the Nitto Group - how it has grown to what it is today and how we will go about creating value in the future - which we hope will give you an overall picture of the Group. Please refer to our corporate website for more details and relevant information.

This report is available in Japanese and English and can be found on our corporate website.

Scope

This report covers the business activities of 98 companies including Nitto Denko Corporation and its 93 subsidiaries and 2 affiliates, as of March 31, 2020.

Time Period

Fiscal 2019 (April 1, 2019 - March 31, 2020)

Some performance figures and activities from periods other than the above are also included.

Reference Guidelines

This report has been prepared with reference to the following guidelines:
- Global Reporting Initiative (GRI) Standards by the Global Reporting Initiative
- International Integrated Reporting Framework by the International Integrated Reporting Council (IIRC)
Footsteps of the Nitto Group

True to our corporate Mission of "contributing to customers' value creation with innovative ideas," we at Nitto Group have continuously managed to amaze and inspire our customers by identifying the opportunities presented by changes in the world.

Founded as a manufacturer of insulating materials, the Nitto Group has since advanced hand in hand with customers, tapping into its core expertise, such as adhesion and coating technologies, to deliver diverse products to a variety of industrial sectors, including electronics, automobiles, housing, infrastructure, environment, and healthcare.

Across the globe, we are witnessing increasingly diversifying and complicated social issues that are changing faster than ever before. Against this backdrop, the Nitto Group hopes to remain an integral part of society as it challenges itself to make people’s lives better and more convenient by offering solutions to social issues while achieving its corporate value.

1918-1945
Laying the Groundwork
— Laying the groundwork for starting insulation business at Osaki, Tokyo —
Nitto Electric Industrial Co., Ltd. was formed in Osaki, Tokyo on October 25, 1918.

It was a time when electricity was rapidly becoming widespread as one of the infrastructures essential for industrial development. Nitto Electric Industrial was formed to get involved in the urgently needed domestic production of electrical insulating materials, important components of electrical equipment and machinery.

1946-1960
The Second Beginning
— Starting over at Ibaraki, Osaka, after WWII —

After the plant in Osaki, Tokyo, was destroyed by air raids, Nitto restarted operations in Ibaraki, Osaka.
Nitto’s company credo, “Each product, each roll of tape is made with Nitto’s exhaustive efforts. Everything we do is for dedication to our customers,” was introduced in 1956.

In 1961, Nitto separated off Maxell, the department dealing with consumer goods, aiming to take a leap forward as an industrial materials manufacturer.

In 1962, the Iyobushu Plant, our main production site of adhesive tapes in Japan even at present, began operation. The Kanto Plant also began operation in 1963 in a move to increase production. Overseas, Nitto Denko America, Inc. was formed in 1968, followed by the 1969 foundation of Nitto Denko (Taiwan) Corp. as the first overseas manufacturing site.

1961-1973
Commencing Business in the Production of Industrial Materials
— Separating off Maxell —

In 1961, Nitto separated off Maxell, the department dealing with consumer goods, aiming to take a leap forward as an industrial materials manufacturer.

In 1962, the Iyobushu Plant, our main production site of adhesive tapes in Japan even at present, began operation. The Kanto Plant also began operation in 1963 in a move to increase production. Overseas, Nitto Denko America, Inc. was formed in 1968, followed by the 1969 foundation of Nitto Denko (Taiwan) Corp. as the first overseas manufacturing site.

1974-1988
Diversification of Business and Globalization
— Advancing into the fields of medical care and electronics, commencement of overseas operation, and acceleration of M&As —

In the aftermath of the oil crisis of 1973, Nitto drove diversification of business to fortify itself with enough resources to survive economic fluctuations. Nitto began offering materials for use in electronics and also gave birth to various products related to medical care and the membrane business.

In 1974, Nitto Belgium N.V. was formed. In 1987, Nitto acquired Hydrautronics in the U.S. to implement the membrane business on a global level.

In 1988, when Nitto celebrated the 70th year since its foundation, the company name was changed to Nitto Denko Corporation.

1989-2007
Introduction of the Business Division System / Implementation of Global Niche Top Strategy
— Establishing business foundation for sustained growth —

In 1989, the business division system was introduced to get back to the basics of serving customers and to respond speedily to dynamic changes in the market. In 1994, Nitto began implementing the Global Niche Top strategy, with the aim of achieving top global market share by determining markets with high-growth potential and focusing its management resources into niche fields where Nitto has a competitive advantage.

Nitto’s effort was not limited to the offering of products, and resulted in the development of Roll to Panel**, a business model which offers new values to customers, including productivity improvement, reduction of packaging materials, improved yield of polarizing films, and manpower saving.

1997-2008
Establishing Business Foundation for Sustained Growth
— Further business reform to offer comfortable lives to people —

The economic crisis of 2008 cast a major shadow over countless businesses and Nitto was no exception. Yet, Nitto was able to recover in a short time by responding speedily to the changes in the business environment and with its unique management approaches of “Mu-Gen Da**” and “Kuresawa,” a group discussion to come up with ideas or solve problems, achieved major earnings growth thereafter.

In 2012, the “Nitto Denko” brand logo was renewed to the current “Nitto,” and in 2014 the new brand slogan, “Innovation for Customers” was established.

Nitto celebrated its 100th anniversary in 2018.

*2 Nitto’s growth plan that centers around substantial reform (to substitute), and
*3 Mu-Gen Da** a group discussion to come up with ideas or solve problems, to reduce, and Kuresawa (to reduce).

Since 1918, our foundation year, the Nitto Group has given rise to numerous products through combinations of its proprietary technologies and expanded the scope of its business to various fields by unfailingly adapting to the changes of the times and applying the technologies and products that it has developed.
The Nitto Group Now

Everywhere, Comfortable Life

Nitto has continued its challenge with the near future in mind, in areas no one else has ever challenged.

Global Network

Nitto Group 92 companies* (as of March 31, 2020)

*Excluding 6 less significant companies including those under liquidation

Housing / Housing Equipment

The housing industry is increasingly faced with highly demanding factors, such as solar cells, storage batteries, and an integrated management system for household appliances. Nitto is doing its best to meet these advanced requirements by providing the materials and parts needed for these applications.

Medical

Nitto has secured the global top share in the synthesis of nucleic acid medicines. Nitto’s transdermal adhesive drug films that apply adhesive technology have been highly acclaimed for their reliable production technology based on long-standing experience.

Automotive and Transportation Equipment

Nitto provides integrated solutions to meet the recent needs of the automobile field, through technologies such as lightweight, and the evolution of power modules for environmental vehicles and electrical equipment developed in pursuit of safety and amenity.

Profile Top Message Business Models Strategies Management

Foundations Governance Data Section

Packaging

Nitto offers products and technical services, including technologies that help protect water resources through seawater desalination and reuse of drainage water. In addition, Nitto has advanced its research and development in the field of new energy, providing materials for solar power generation.

Materials

Nitto offers solutions that incorporate its unique technologies and products. Nitto has experience in producing high-definition image, durable, thin, and lightweight technologies in various types of optical and adhesive film for displays and touch panel devices.

Display

Nitto has secured the global top share in the synthesis of nucleic acid medicines. Nitto’s transdermal adhesive drug films that apply adhesive technology have been highly acclaimed for their reliable production technology based on long-standing experience.

Consumer Products / Personal Care Products

Nitto supplies the consumer market with various materials to meet various needs. Some of the products include films for condensation control, packaging, and security films that make it possible to know that the tape has been tampered with.

Electronic Devices

Nitto offers a diverse lineup of products for various applications. This wide range includes ultra-thin sealant materials, which are particularly low in material solutions that can accommodate devices, as well as double-sided tapes which can replace mechanical fasteners such as screws.

Home Appliance and Electrical Equipment

Nitto offers a diverse lineup of products for various applications. Ultra-thin sealant materials, which are practically free of impurities that can contaminate devices; as well as double-sided tapes which can replace mechanical fasteners such as screws.

Infrastructure Industries

Nitto offers products and technical services, including technologies that help protect water resources through seawater desalination and reuse of drainage water. In addition, Nitto has advanced its research and development in the field of new energy, providing materials for solar power generation.
